

Search for staff/entities

Using the directory it is possible to search for both individuals and entities.

Two types of data are provided:

- Institutional data: contains information such as name and surname, telephone, e-mail, postal address, teaching and tutoring, position or job title, name of an entity or e-mail of an entity. These data are read from the institutional databases of the University of Granada.
- Other data such as research, curriculum, professional cell phone, corporate phone...
