

Fermín Fernández Ibáñez

Dpto. Geodinámica, Universidad de Granada
Campus Fuentenueva s/n, 18002 – Granada (SPAIN)
e-mail: fferiba@ugr.es phone: +34 659449386

Educational History

Present	Post-doctoral fellow (Andalusian Institute of Earth Sciences, Spain)
2003-2007	Ph.D. Earth Sciences (Dept. of Geodynamics, Granada University, Spain)
2002-2004	M.S. Earth Sciences (Dept. of Geodynamics, Granada University, Spain)
1997-2002	B. S. with first class honours in Geology (Granada University, Spain)

Honors and awards

2006	European Science Foundation Travel Grant
2005	European Science Foundation Travel Grant
2004-2005	<i>Fundación J. García-Siñeriz</i> Prize to the best Master thesis in Geophysics
2003-2006	Spanish Ministry Fellowship for post-graduate studies
2003	2 nd National Award of the Spanish Government to the best B. S. in Geology
2002	Research Experience for Undergraduates (Spanish Ministry Scholarship)
2002	Granada Sciences Academy Award to the most outstanding B. S. in Geology
2001	Research Experience for Undergraduates (Granada University Scholarship)
1999-2000	Granada University Honors Scholarship to the 200 most outstanding students

Work Experience

2002-2003	<i>Geological mapping and evaluation of industrial rocks resources in the Murcia Region</i> Company: The Marble and Natural Stone Technological Center (Murcia, Spain) September 2002 to February 2003 Supervisor: Antonio Molina
-----------	--

Research Experience

a. Participation in research projects

2007-present	<i>EVADIR - EValuation of Active Deformations in the south Iberia using insaR</i> Ministério da Ciência, Tecnologia e Ensino Superior (Portugal) P.I.: Maria Luisa Machado Cerqueira Bastos
2006-present	<i>The Gibraltar Arc System: Active Geodynamic Processes at the South Iberian Margins</i> Spanish Bureau of Science research project P.I.: María del Carmen Comas Minondo
2003-present	<i>Tectonics and Marine Geology in the Alboran Sea</i> Andalusian Council research project
2003-2006	<i>Imaging the western Mediterranean margins: a key target to understand the interaction between deep and shallow processes</i> European Science Foundation research project (Euromargins) P.I.: Manel Fernández Ortiga
2003	<i>The configuration and evolution of the West Alboran Basin (WAB) from the Pliocene up until now</i> Conoco-Phillips and Granada University P.I.: J.I. Soto

2001-2005 *Integrated geological and geophysical studies of the margins and basins of South Iberia: relationships between surface and deep processes in the Alboran Sea and its connection to the Atlantic*
 Spanish Bureau of Science research project
 P.I.: Maria del Carmen Comas Minondo

b. Short term stays in other research centers

2003-2004	Spanish Antarctic Base “Gabriel de Castilla”, Deception Island, West Antarctica. Installation and maintenance of a seismic network for monitoring seismo-tectonic activity in Deception Island Supervisor: Jesús Ibáñez	Period: 12 weeks
2004	Institute of Earth Sciences “Jaume Almera”, Barcelona, Spain. Modeling the thermal structure of the crust in the Betic-Rif and Alboran Sea region Supervisor: Manel Fernández	Period: 2 weeks
2005	Stress and Crustal Mechanics Group, Dept. of Geophysics, Stanford University. Present-day stress field inversion in the Gibraltar Arc region Supervisor: Mark Zoback	Period: 12 weeks
2006	Institute of Earth Sciences “Jaume Almera”, Barcelona, Spain. Modeling partial melting processes in the deep crust of the Gibraltar Arc Supervisor: Manel Fernández	Period: 12 weeks

Field Experience

2002	“Training Through Research Program (TTR-12)”, Intergovernmental Oceanographic Commission, UNESCO. Member of the MARSIBAL-1 Scientific Party on board of the R/V Professor Logachev. Worked on seismic reflection interpretation, sea-bottom samples description and helped with gravity coring. P.I.: M. Ivanov (Moscow State University) and M.C. Comas (CSIC-Granada University). 19 th -28 th July 2002.
2003	“e-Ruption: A Satellite Telecommunication and Internet-Based Seismic Monitoring System for Volcanic eruption forecasting and Risk Management”. Installation and maintenance of a seismic network on the Teide volcano (Canary Islands, Spain). P.I.: J. Ibáñez (Granada University). 7 th – 12 th November 2003.
2004	“TOMODEC: Tomografía sísmica de alta resolución de la isla Decepción (Antártica) y modelización de la fuente sísmica de referencia”. Installation of seismographs and monitoring of seismic activity in Deception Island, West Antarctica. P.I.: J. Ibáñez (Granada University). 14 th December 2003 to 4 th March 2004.
2004	“Training Through Research Program (TTR-14)”, Intergovernmental Oceanographic Commission, UNESCO. Member of the SEIMAR Scientific Party on board of the R/V Professor Logachev. Worked on seismic reflection and swath bathymetry data interpretation, sea-bottom samples description, helped with gravity coring. Worked on preliminary results reports. P.I.: M. Ivanov (Moscow State University) and M.C. Comas (CSIC-Granada University). 11 th -19 th August 2004.
2005	“SAFOD: San Andreas Fault Observatory at Depth (SAFOD-MH-PHASE II)”. International Continental Drilling Program (ICDP) – Earthscope (National Science Foundation). Washed cuttings, collected cuttings and mud samples, updated DIS database with daily drilling reports and sample information, took cutting photographs. Supervised by: Mark D. Zoback (Stanford University). 2 nd June to 12 th July 2005.

- Fernández-Ibáñez, F.**, Soto, J.I. and Zoback, M.D. (2007). Borehole breakout analysis characterizes present-day stress field in the Alboran Sea and the Betics [Poster]. Accepted for presentation in *1st International Conference of the Moroccan Association of Petroleum Geologists (MAPG) in association with the American Association of Petroleum Geologists (AAPG)*, Marrakech (Morocco), 28-31 October 2007.

Teaching Experience

- | | |
|-----------|---|
| 2006-2007 | Teaching Assistant, Introduction to Field Geology, Granada University |
| 2005-2006 | Teaching Assistant, Introduction to Field Geology, Granada University |
| 2005-2006 | Teaching Assistant, Tectonics, Granada University |

Computer skills

Working knowledge of Windows operating system, MS Office, Macromedia Freehand, Surfer, Fledermaus and Origin.

Basic knowledge of GMT scripting, FORTRAN programming, ArcGIS, and Macromedia DreamWeaver

Professional Affiliations

Geological Society of Spain

American Geophysical Union

European Geophysical Union

American Association of Petroleum Geologists

Society of Exploration Geophysicists (Vice-President of the Granada University SEG Student Section)
