

# TRACE

Traditional Children's Stories For a Common Future

The project **AIMS** to, through children's stories, show children a trace by which they can discover countries not known well by them, but also to motivate and habituate them to critical thinking.

## OBJECTIVES

- **DEVELOPMENT** of digital learning materials and tools through new and innovative educational methods as well as actions that promote and support the effective use of information and communication technologies (ICT) in education and training.
- **TRAINING** for teachers and librarians to use new skills and new methodologies in working with children.
- **DESIGN** of a methodology for finding stories which promote European values in partner countries. One of the goals is to make these stories available to general public.
- **PROMOTION** of the European community and cultura.

**Project for European teachers who work with children from age 6 to age 12 in order to introduce traditional children's tales from EU countries.**

## Intellectual outcomes (IOs)

- IO1 TRACE EDUCATIONAL PACKAGE
- IO2 TRACE E-PLATFORM FOR TRADITIONAL EUROPEAN CHILDREN STORIES

## ACTIVITIES

Each IO includes the following activities:

- IO1:**
- Review of the current **state of the art** in a school system and in non-formal education, regarding traditional children stories in partner countries.
  - A short **survey** of teachers and librarians' traditional children stories with ethical issues.
  - National **Focus groups**.
  - **Translation of 3 stories** from each partner countries, creating workshops for each story and guidelines for teachers and librarians.
- IO 2:**
- Publishing of **digitized originals** and their translations in English language.
  - Enabling parallel **display of a story** in two languages.
  - Publishing translations of the stories illustrated with **drawings of children** in the form of an e-book.
  - Design and development of **multilingual TRACE portal**.
  - Adjustments of the **portal for disabled people**.
