Research Transfer Office (OTRI)

The Research Transfer Office (OTRI) strives to identify key research results and developments fit for commercialisation and promote their practical application worldwide. The OTRI provides services to three primary groups:

- UGR researchers, ensuring that the breakthroughs they make have a positive socio-economic impact
- Companies, ensuring that they build strategic bonds with the UGR, thus improving their ability to compete at national and international levels
- Entrepreneurs, with the support needed to set up spin-offs

Please visit the Research Transfer Office (OTRI) Homepage for further information
