## Unrivalled Language Learning Opportunities at CLM

The Modern Languages Centre is one of the leading institutions in Spain for language learning. Teaching staff are highly qualified, the administrative team is dedicated and effective, and the centre boasts a wide range of services, a wealth of learning resources, and endless extracurricular activities. Here at the Centre we employ a thoroughly communicative approach, ensuring that students learn Spanish in real life situations. The centre offers general Spanish language Courses for foreign students, academic Spanish courses, and foreign language courses in English, French, German, Italian, Portuguese, Russian, Arabic, Japanese, Catalan, Romanian and Swedish.

All courses at CLM comply with the content description set out in the Common European Framework of Reference for Languages (CEFR)

Approximately 8,000 university and non-university students sign up for language courses at CLM every year. The classes enable students to vastly improve their speaking, listening, reading and writing skills. This learning process takes place in a friendly, stimulating and dynamic learning environment.

These courses are also a great opportunity to meet people, and become friends with students from diverse countries, cultures and backgrounds.

Native Spanish students and international students also interact via a language exchange service. This exchange service allows you to practice the language you are learning with a native speaker outside class time, reinforcing the knowledge and language skills acquired in the classroom.

Additionally, CLM offers internationally recognised teaching courses to those who aspire to become Spanish, English, French, German or Italian teachers.
